

Direct Veneers: How to Create the Right Shape and Texture and Achieve the Desire Shade Hands-On Training

03 November 2017 | IH, DFC, Dubai, UAE

Tutor

Dr. Mahn graduated from the University of Chile in 2004. He received the German DDS, one year later. The New York University College of Dentistry certified him as Implantologist in 2007. In 2008, he published his doctorate thesis in 2008 titled "Osseointegration of zirconia implants, an in vivo study" and got his doctorate degree in 2010 from the University of Duesseldorf, Germany. Between 2007 and

2009 he worked for Ivoclar Vivadent at the ICDE (International Center for Dental Education), Schaan, Liechtenstein and he is presently a guest lecturer at several universities. He is the author from a variety of articles and has been lecturing intensively about Esthetic Dentistry and Implantology in more than 50 countries.

Course Objectives

- The participants will learn relevant parameters for esthetic rehabilitations
- They will learn about tooth proportions and possible corrections
- They will learn about advantages and disadvantages of direct veneers
- They will learn about their limitations
- They will learn about new techniques and materials for direct restorations
- They will learn how to close a diastema mediale in a minimal invasive and predictable way
- They will learn how to use a silicon guide and how to get tight anterior contact points
- The FEM technique and its applications

Agenda

09:00 - 11:00

Lecture: Color, translucency and opacity; Preparation techniques for anterior restorations; Direct veneers: advantages and disadvantages; Techniques, possibilities and limitations; Characteristics of modern composites, systems, properties, advantages and limitations; Layering technique: Polychromatic approach; New techniques for optimizing the shape and contours, tight contact points, proper interproximal embrasures and emergence profile

11:00 - 11:30

Coffee Break

11:30 - 13:30

Clinical cases discussion (Interactive discussion, questions and answers)

13:30 - 14:30

Lunch

14:30 - 17:30

Hands-on: Direct veneers on teeth 11 and 21.

In addition both teeth will present a diastema mediale, which make the treatment clearly more difficult. One tooth will also have a class IV defect which challenges the clinician regarding opacity and colour match even more.

17:30 - 18:00

Discussion

2200 AED (599 US\$) COURSE PRICE | **3000 AED (815 US\$) WITH CONFERENCE**
