THE EVENT

To welcome its 5th Anniversary this year, CAD/CAM & Computerized Dentistry Int'l Conference embarked on a brand new journey.

The organizers, CAPP and Emirates Dental Society achieve for the 5th time great record of attendance and established a reputation as the industry's leading international conference. The Address Dubai Marina Hotel hosts 726 participants in the very elegant atmosphere.

Technology is changing the world of dentistry. In an increasingly inter-linked global environment. New threats and challenges have created an urgent need for new responses. Nowhere is this more true than in the area of education and training where technology is bringing new advantages and opportunities.

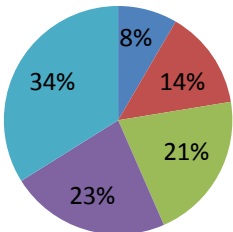

"A quick glance at the last IDS in Koln, Germany shows not only the extraordinary improvements to computerized technology, but the extraordinary improvements to this technology, but the vast number of manufacturers that are joining the market as well" Dr. M Silwadi

Bringing together leading experts and practitioners, the conference proved an excellent opportunity for networking and sharing experiences in the application of technology throughout the learning cycle - from primary and secondary education through to professional development and lifelong learning.

The agenda featured valuable examples of how the latest developments are being put to work in the service of learners regardless of their location or level of technology.

Participation Breakdown

- year2006
- year2007
- year2008
- year2010
- year2011

Eight sponsors – Sirona, Ivoclar Vivavent, 3M ESPE, VITA, Zirkozahn, Cynoprod, AMANNGIRRBACH, MP C, and eight industry players - SHERA, EVE, High Technologiy, Vertex Dental, Dubai Medical Equipment, Intensiv , Eisenbacher Dentalwaren supported the conference. Representing 5 countries – Germany, Austria, UK, Switzerland, UAE.

CONFERENCE

Dr. Munir J. Silwadi, Conference Chairman and Scientific Program Advisor hosted the 11 industry leading speakers. The conference schedule included one new activity – Theatre presentation, four sessions with a variety of topics being presented and discussed, and three workshops.

THEATRE PRESENTATION – NEW!

Today our patients are asking for more esthetic and durable all-ceramic restorations. The combination of chair side manufactured all-ceramic restorations using the CAD/CAM technology with CEREC © and the adhesive cementation technique facilitate long lasting restorations resulting in significant preservation of tooth structure and excellent esthetics meeting the highest patient demands. However, small mistakes in the various clinical steps of the treatment sequence and the manufacturing process can compromise the clinical long- term success of our CAD/CAM restorations.

In a joint interactive lecture Dr. Michael Dieter and Mr. Joerg Vogt presented a predictable concept for the chairside treatment with single tooth CAD/CAM restorations taking into account all the critical steps to the final restoration.

Dr. Michael Dieter focused on the clinical treatment sequence, e.g. indications, tooth preparation, selection of the correct color, translucency and strength of ceramic blocks, plus all the cementation options for the luting procedure. Special emphasis was given to the perfection of the esthetic outcome of the restoration after milling.

Mr. Joerg Vogt introduced the latest on "One-visit digital dentistry" with CEREC AC Bluecam: How to take perfect digital optical impressions, update on the latest software version including the new Biogeneric software.

"Detailed yet smooth presentation and informative."

"Impressive & Refreshing Presentation."

"Very nice dual work, both Interesting and Beneficial."

"This was very informative presentation. Thank you to both speakers."

SPEAKERS

The **Keynote speaker Dr. Andreas Kurbard, Germany** opened the morning session of day one with a presentation “CAE 2 - Computer Aided Esthetics - The Science of Communication”, followed by **Dr. Lutz Ritter, Germany** who discussed the topic of “Virtual 3D Prosthetic and Implant Planning using Cone Beam Imaging and CEREC”.

“Refreshing idea good speakers, with excellent presentation skills”.

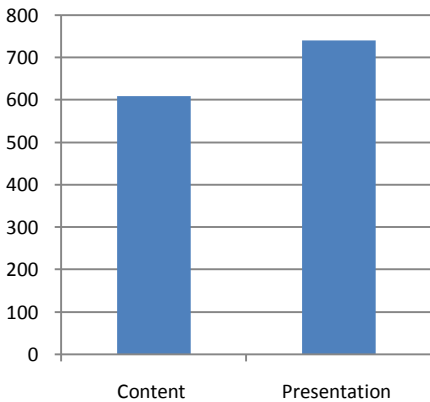

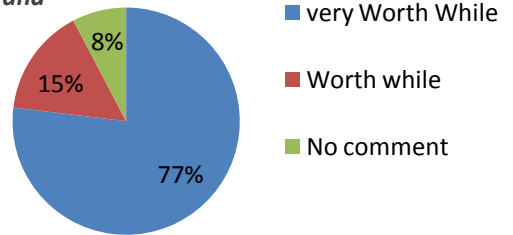

Overall Feed back 2011

“Very nice and informative and innovative lecture.”

“Very good and educational. Outstanding work.”

“Thank for such thoughtful lecture.”

The conference continued with presentation “Ceramill Mall - Digital Function Design Inhouse and Easier than Ever “ by **Achim Wennekers DT, Germany**. The first day finished with two discussions by **Dr. Andreas Kurbard** “CAV - Computer Aided Veneering of Crowns and Bridges” and **Dr. Faysal Succaria, UAE** – “Ensuring Success with Modern CAD/CAM Restorations by Applying Classic Prosthodontic Principles”.

The second day of the conference started with the second theme by **Dr. Lutz Ritter** “3D Cone Beam Computed Tomography (CBCT) Clinical Applications in Dentomaxillofacial Radiology “. **Dr. Steven M. Morgano DMD, USA** presented “Tooth Preparation Design for CAD/CAM Restorations and Cementation”.

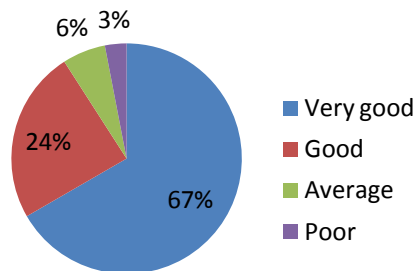

The morning session of day two finished with discussions by **Dr. Esam Ahmed Tashkandi, KSA** "Applied Color Science for Dentistry" and **Dr. Stefan Grumer, Germany** "Laser - and Computer Aided Dentistry, Synergisms and Limitations".

In the afternoon **Dr. Steven M. Morgano DMD, USA** started his second presentation "CAD/CAM Technology: An Update" followed by **Dr. Nadim Aboujaoude, Lebanon** with theme "To Bond or Not to Bond".

The conference finished with the discussion "CAD/CAM Orthodontics" by **Dr. Khaled Abouseada, Egypt/KSA**.

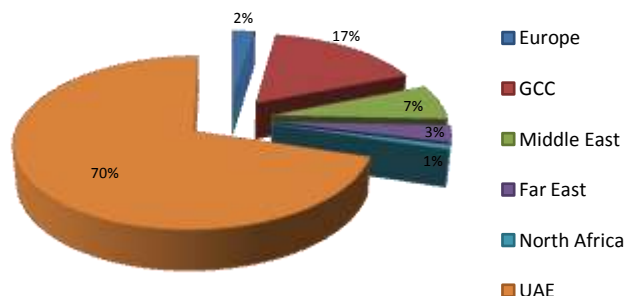

Conference Programme 2011

"All lectures are full of new and interesting information. Thank you!"

PARTICIPATION STATISTICS

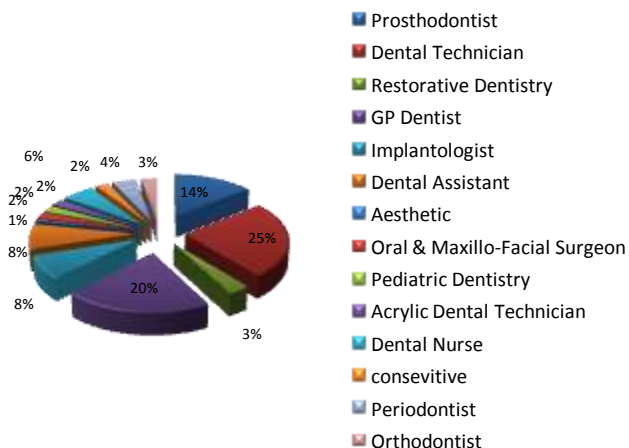

Country Representation 2011

Dentists from different specialties, Prosthodontists, Dental Technicians / Acrylic Dental Technicians, specialists in Restorative Dentistry, GP Dentists, Implantologists, Dental Assistants, Oral & Maxillo-Facial Surgeons, Pediatric dentists, Periodontists - all enjoyed the high level of the scientific program and met the top industrial players in this field during the two days of the conference.

The conference welcomed 726 participants, 68 representatives from international companies. Many visitors and guests attended at the two days conference. 17 different countries were presented - KSA, Lebanon, Kuwait, Jordan, Greece, UAE, India, Oman, UAE, Tanzania, Egypt, Qatar, Bahrain, Pakistan, Tunisia, Iraq, Germany and Romania. Participants accumulate the latest opinions, trends, and insights from industry thought leaders, shared experiences with colleagues, made new contacts and bound existing relationships, and exchange their ideas and knowledge.

Specialty Representation 2011

"Very helpful, the speaker was clear and made the information understandable."

PARALEL EVENTS

Networking Opportunities

As every year our two innovative events “Breakfast with the sponsors” and “Meet the sponsor “ during the conference give the opportunities to the delegates to network with the industry and to see the latest technologies and equipment’s. This is the place where dental industry and dental specialists build relationships. We try to provide one an interactive environment where the delegates had opportunities to share their clinical experience and give a feedback to the industry. The environment allowed industry to network with potential clients and partners as quick and easy as possible.

Hands On Courses

Veneers Hands-on Course

11 May 2011, Tutor: Dr. Munir Silwadi, UAE

The Ceramic Veneers treatment modality demands that the restorative dentist acquire proper knowledge and skills as well as following certain protocols to be able to achieve the desired results. This presentation was discuss factors that affect preparation, shade selection, temporization, as well as bonding of veneers.

“Exceptional knowledge & experience passed to the attendance in a clear, precise, concise manner which greatly elevates the attendee’s scope & confidence.”

“Nice and very intelligent course, excellent tutor. 3M is a bigger company than they imagined.”

3D Imaging in Dentistry Hands-on Course

12 May 2011, Tutor: Dr. Lutz Ritter, Germany

In this workshop three-dimensional imaging was discussed together with planned oral reconstruction, computer aided implant planning and Dentomaxillofacial radiology e.g. for pre-surgical visualization.

“We need more hands on coarse like this. I found workshop to be a great help and I look forward to participating again in the future .”

Microimplants Hands-on Course

12 May 2011, Tutor: Dr. Bilal Koleilat. Lebanon

The aim of this course and typodont hands on is to illustrate how the use of microimplants expanded the limits of tooth movements, facilitated the treatment of certain malocclusions previously considered non manageable orthodontically, and defined new rules for the concept of modern anchorage.

5th CAD/CAM Anniversary Party

Already Celebrating 5 years!

The CAD/CAM & Computerized Dentistry Int'l conference launched in Dubai In 2006 and has continued to grow receiving excellent feed back for the sponsors and participants as the pioneer in opening the door for this innovative technology in the region.

Organizers CAPP and Emirates Medical Association honored Partners, Sponsors, Speakers, Media partners for their efforts and their continued support. The 5th Anniversary celebration was hosted in The Palace Down Town Hotel Dubai, a special evening overlooking the spectacular Dubai fountain.

We say a big **Thank you!** to all and look forward to many more successful years together .

Special thanks to **Gerd Lehman** MDT, Director of Master Dental Technician School, Munich for his continue scientific support of the CAD/CAM Conferences.

Partners

Lebanese Dental Laboratories Association

"I would like to send you my group & my, big thanks & appreciation for the well done organizing & generous hospitality... from my side I had the chance to enrich my personal experience and thank u for appreciating the small effort I did comparing with your great team work effort. I am honored to be rewarded by you as co-organizer."

Rodny Abadallah
Lebanese Dental Laboratories Association

Opal

"Thank you to CAPP for putting together such a well organized event and providing the region with the ever changing Techniques and Technology of CAD/CAM. "

Smile Dental Journal

"We are happy to be partners in such a successful event."

Dental News

"Ones again Dubai has been an excellent host for. Welcoming Guests speakers and companies form all over the world. From my interviews during the conference I can see how important CAD/CAM is to the region and that this conference delivers the knowledge and understanding the dentist/ dental technicians need. "

Dr. Tony Dip
Dental News

Arab Dental Labor

"Thanks for your nice support in Dubai . I was so glad that I joined this event which CAPP organize It was so perfect I was really astonished for such an elegant show.

Really great thanks for CAPP!"
