SPEAKERS SPOTLIGHT

Organised by:

Dentists, Dental Technicians & Dental Team are welcome at the event.

Welcome to the CAD/CAM & Digital Dentistry International Conference, 10th Edition. Thank you all very much for your support and loyalty year after year. This year marks the 10th anniversary of our conference. What starts as a simple idea 10 years ago proved, without no doubt, to be a success beyond compare. Our societies are becoming more and more dependent on technology and what it can offer to make our lives easier and more enjoyable. Dentistry is no exception. Our patients are all the way different than they used to be a couple of decades ago. They have unrestricted easy access to knowledge through the web. They are becoming more and more demanding in terms of services that we provide as well as the technology we employ to do so. Our team of Organizers, Sponsors, as well as Speakers will continue our quest to keep all of you well ahead and updated in all fields of CAD/CAM and Digital Dentistry.

Dr. Munir Silwadi, BDS, MRCDISO, DUSS, FADI, FICD Conference Chairman & Scientific Program Advisor
