A NEW CHAPTER IN DENTAL EDUCATION

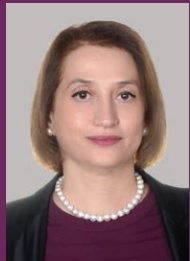

The University of Sharjah College of Dental Medicine, Clinical and Surgical Training Centre (CSTC) and CAPP Events & Training have formalised a strategic collaboration to deliver the **Clinical Certificate in Dental Implantology** — a comprehensive, National Institute for Health Specialties (NIHS)-accredited, one-year live-patient postgraduate programme designed to produce independently practising implantologists in the UAE and beyond.

The collaboration agreement was signed on 22 October 2025 at the College of Dental Medicine, University of Sharjah, bringing together the academic excellence of one of the UAE’s leading universities and over 20 years of CAPP’s dental education expertise in the private sector. The programme is now open for **applications and begins on 24 September 2027**.

Left to right: Prof. Wael Mohamed Talaat Taha, Prof. Zahi Badran, Dr. Ibrahim Mahmood Aziz, Dr. Dobrina Mollova, Prof. Sausan Al Kawas, Dr. Kamis Younis Gaballah, Mr. Petar Mollov.

“This program is a reflection of the University of Sharjah’s commitment to advancing clinical dental education at the highest level. By partnering with CAPP, we are creating a structured, world-class pathway for dental professionals to develop real implantology skills — treating real patients, in a world-class academic environment. We look forward to welcoming the first cohort.

Prof. Sausan Al Kawas
Acting Dean, College of Dental Medicine
University of Sharjah

ABOUT THE PROGRAM

The Clinical Certificate in Dental Implantology is a National Institute for Health Specialties (NIHS)-accredited, one-year live-patient postgraduate program jointly delivered by the University of Sharjah, the University of Sharjah's Clinical and Surgical Training Centre (CSTC) and CAPP Events & Training.

Designed for practicing dental professionals, the program combines rigorous academic instruction with extensive supervised clinical experience — giving graduates the confidence, competency, and credentials to transform their implant practice.

This program takes dental professionals through every aspect of implant dentistry — from the very basics to the most advanced techniques — the right way. By the end, graduates leave with the clinical confidence and hands-on experience to independently place implants in their own practice.

All-inclusive tuition — no hidden costs.
One fee covers everything: all modules, clinical sessions, lab work, consumables, materials, certificates, and everything else.

NIHS Accredited — Ref. NIHS/122/2026
This accreditation and the program fulfils the current requirements for obtaining privileges to practice Implant Dentistry in the UAE.

SCHEDULE & PROGRAM STRUCTURE

STARTS ON 24 SEPTEMBER 2027 | 1 YEAR PROGRAM

Program begins with an Orientation Day and is structured around four core teaching sections throughout the year.

DIDACTIC & HANDS-ON (NON-LIVE PATIENT) | FRIDAYS ONLY | 20 MODULES | 1 DAY EACH

Training is delivered every Friday throughout the academic year, with sessions scheduled around UAE public holidays and academic breaks. Topics cover the full spectrum from biomedical foundations to advanced surgical techniques, digital workflows, and practice management (see next page for details).

CASE PRESENTATIONS | ONLINE | 6 MODULES | 1 DAY EACH

Case review sessions where trainees present and discuss their own cases with faculty, building critical thinking and treatment planning expertise.

INDUSTRY-LED HANDS-ON TRAININGS | FRIDAYS ONLY | 6 MODULES | 1 DAY EACH

There will be modules focused on hands-on workshops led by the dental industry with Straumann, BioHorizons, Nobel Biocare, W&H, and CAPP — direct exposure to multiple leading implant systems*.
*Subject to change without notice

CLINICAL LIVE-PATIENT TRAINING | 30 IMPLANTS PER PARTICIPANT

Wednesday 17:00–21:00 • Thursday 13:00–21:00 • Sunday full day

Each participant is required to complete a minimum of 30 live implant placements and full restorations under direct faculty supervision, with patients provided by the program. Multiple leading implant systems are used throughout the program, exposing dental professionals to different clinical philosophies and schools of thought.

CLINICAL CERTIFICATE IN DENTAL IMPLANTOLOGY PROGRAM

KEY FACTS & BENEFITS

Location: University of Sharjah, Sharjah, UAE — all clinical sessions, surgical training, and industry workshops conducted face-to-face on live patients within the University of Sharjah facility.

Start date: 24 September 2027 (Orientation Day) — 1 year program. Places strictly limited to 24 trainees. Application is open — early application strongly recommended as places are expected to fill quickly.

NIHS accredited — Ref. NIHS/122/2026. The program fulfils the current requirements for obtaining privileges to practice Implant Dentistry in the UAE.

All-inclusive tuition — no hidden costs. One fee covers everything: all implant kits and surgical consumables across multiple implant systems, CBCT scans and diagnostic imaging, digital prosthetics and lab fees, all module certificates, all industry workshop materials, and everything else

Live patient clinical training — 30 live implant placements per participant, under direct faculty supervision. Patients are provided by the program.
Multiple leading implant systems used, exposing delegates to different clinical philosophies and schools of thought.

32 total sessions: 20 didactic & hands-on modules (Fridays) + 6 online case presentation sessions + 6 industry-led hands-on workshops with Straumann, BioHorizons, Nobel Biocare, W&H, and CAPP.

140 CE credits available.

Program structure: split into four core teaching sections — didactic & hands-on modules, online case presentations, industry-led workshops, and clinical live-patient training sessions

Faculty: delivered by University of Sharjah faculty and international experts.

Target audience: practicing dental professionals holding a BDS, DDS, or DMD with a minimum of 3 years post-internship clinical experience and a valid dental practitioner licence.

Small cohort — maximum 24 trainees. Rolling admissions with interview. Special attention given to each individual delegate throughout the program.

Payment in 5 installments

Non-commercial, non-sponsored educational program. All content is strictly evidence-based and delivered to the highest academic standards.

FREQUENTLY ASKED QUESTIONS

ABOUT THE PROGRAM

What is the core purpose of this program?

To produce clinically confident, independently practising implantologists. By the end of the program, graduates will have completed a minimum of 30 live implant placements across multiple systems, mastered surgical and prosthetic workflows, and received a NIHS-accredited certificate from the University of Sharjah College of Dental Medicine.

Simply put — this program takes dental professionals through every aspect of implant dentistry, from foundations to the most advanced techniques, the right way. Once a person completes the program, they will feel confident to independently place implants in their own dental practice.

Who organises and awards this program?

The program is organised and awarded by the University of Sharjah and its Clinical and Surgical Training Centre (CSTC), in partnership with CAPP Events & Training as the official marketing and co-organising partner.

Is this program accredited?

Yes. The program holds NIHS accreditation — Ref. NIHS/122/2026. NIHS (National Institute for Health Specialities) is a leading GCC healthcare accreditation body. This accreditation supports graduates in obtaining implant privileges in the UAE. The program also offers approximately 140 CME hours, with certificates issued per module.

Does completing this program help me obtain implant privileges in the UAE?

Yes. The program fulfils the current requirements for obtaining privileges to practice Implant Dentistry in the UAE. The NIHS accreditation (Ref. NIHS/122/2026) directly supports this process.

Is this a commercial or sponsored course?

No. This is a non-commercial, non-sponsored educational program. All content is strictly evidence-based and delivered to the highest academic standards. While industry partners participate in hands-on workshops, the academic curriculum is entirely independent.

SCHEDULE & STRUCTURE

When does the program start and how long does it last?

The program begins with an Orientation Day on 24 September 2027 and runs for 12 months. Training sessions are scheduled around UAE public holidays and academic breaks.

How is the program structured?

The program is split into four core teaching sections:

- Didactic & hands-on modules — 20 face-to-face modules, Fridays only.
- Case presentations — 6 online sessions where trainees present and discuss their own cases with faculty.
- Industry-led hands-on workshops — 6 modules with Straumann, BioHorizons, Nobel Biocare, W&H, and CAPP, providing direct exposure to multiple leading implant systems.
- Clinical live-patient training

Where does the program take place?

All sessions — clinical training, didactic modules, and industry workshops — are conducted face-to-face at the University of Sharjah, Sharjah, UAE.

What implant systems will I work with?

Participants will gain hands-on experience with multiple leading implant systems including Straumann, BioHorizons, Nobel Biocare and W&H, among others. This exposure to different systems and clinical philosophies is a key strength of the program. Systems are subject to change without notice.

ADMISSIONS & ELIGIBILITY

What are the requirements to join the program?

- Applicants must meet all of the following:
- Hold a recognised dental degree (BDS, DDS, or DMD)
 - Min 3 years post-internship clinical experience
 - Hold a current, valid dental practitioner licence
 - Provide two professional reference letters dated within the last 12 months
 - Provide a transcript of records and an updated CV
 - Passport copy

FREQUENTLY ASKED QUESTIONS

Can dentists licensed outside the UAE apply?

Yes. Dentists licensed in other countries are eligible to apply and can attend and place implants at the University of Sharjah, subject to Dataflow clearance. However, very frequent travel will be required.

What is the deadline for registration?

Places are strictly limited to 24 trainees and allocated on a rolling, interview-based basis — there is no fixed deadline. However, early application is strongly recommended as places are expected to fill quickly. Apply at events@cappmea.com.

What is the admissions process?

The process has four steps:

- Application submission — complete and submit your documents to events@cappmea.com
- Admissions interview — shortlisted candidates are invited for a brief online interview with the program leadership team
- Offer & acceptance — a conditional offer letter is issued after a successful interview
- Enrolment & payment — secure your place by paying the first installment

FEES & PAYMENT

What is the tuition fee and what does it include?

The all-inclusive fee is 147,500 AED (inclusive of 5% VAT). One fee covers absolutely everything — there are no hidden costs:

- All implant kits and surgical consumables across multiple implant systems
- CBCT scans and diagnostic imaging
- All digital prosthetics and lab fees
- Module certificates and all industry workshop materials
- Final certificate
- ~140 CME credit hours

Can I pay in installments?

Yes. Payment can be made in 5 installments via the University of Sharjah payment portal. Bank transfer and credit card are both accepted.

CLINICAL TRAINING & PATIENTS

How many implants will I place during the program?

Each participant is required to complete a minimum of 30 live implant placements under direct faculty supervision throughout the year, across multiple leading implant systems.

Are patients provided, or do I need to bring my own?

Patients are provided by the program — you do not need to source your own. All clinical sessions take place at the University of Sharjah CSTC facility under direct faculty supervision. You could bring your own patient, however certain requirements would need to be followed.

FACULTY & SUPPORT

Who leads the program?

The program is led by an experienced team from the University of Sharjah:

- Dr. Kamis Gaballah — Program Director, Oral & Maxillofacial Surgeon
- Prof. Zahi Badran — Program Co-Director, Periodontist
- Dr. Ibrahim Bayram — Program Coordinator, Prosthodontist

The wider faculty comprises over 25 University of Sharjah specialists and invited international experts.

What if I have questions during the program?

You will have direct access to your faculty leads — Prof. Zahi Badran and Dr. Kamis Gaballah — during clinical sessions and via email. With a maximum cohort of only 24 trainees, the program is designed to give each participant personal attention throughout the year.

Are there networking opportunities?

Yes. With a maximum cohort of only 24 trainees, you will work closely alongside peers and faculty throughout the year. The 6 case presentation sessions and 6 industry workshops provide regular structured networking with fellow trainees, University of Sharjah faculty, and representatives from leading implant companies.

ASSESSMENT & CERTIFICATE

Is there an exam or assessment?

Rather than a single exam, progress is evaluated through a variety of continuous formative assessments throughout the programme — including clinical assessments, case presentations, and literature reviews.

What certificate will I receive?

Upon successful completion of all program requirements, graduates receive a Clinical Certificate in Dental Implantology awarded by the University of Sharjah. The certificate is NIHS-accredited (Ref. NIHS/122/2026). CME Certificates are also issued per module throughout the program.

REQUIRED DOCUMENTS FOR APPLICATION

Filled in and signed registration form

Proof of 3 years post-internship clinical experience

Copy of dental degree certificate (BDS, DDS or DMD)

Transcript of records of a bachelor's degree

Copy of current dental practitioner licence

Two professional reference letters (dated within the last 12 months)

Updated Curriculum Vitae (CV)

Passport copy

4-STEP REGISTRATION

Application Submission — Complete and submit your documents to events@cappmea.com

Admissions Online Interview — Shortlisted candidates are invited for a brief interview with the program leadership team

Offer & Acceptance — A conditional offer letter is issued after a successful interview

Enrolment & Payment — Secure your place by paying the first installment via bank transfer or credit card payment

PROGRAM TUITION FEE

147,500 AED

All-inclusive – no hidden costs

Price is inclusive of 5% VAT

All materials & implants included

Certificates

Payment is accepted via bank transfer or credit card

Payment in installments:

- 1st Installment (non-refundable) | 49,500 AED | On Registration
- 2nd Installment | 24,500 AED | Before 1st October 2027
- 3rd Installment | 24,500 AED | Before 1st January 2028
- 4th Installment | 24,500 AED | Before 1st March 2028
- 5th Installment | 24,500 AED | Before 1st July 2028
