What Did They Say

“ Really enjoyed these 4 days - I have learned so much and great to put the Duralay technique into practice as I have only seen this on slides as an undergraduate. Very good theory with essential knowledge on whitening that can be put into everyday practice. A great mix of lectures and practicals on phantom heads.

Dr Nina Holmes, UAE

“ I highly recommend this course to dentists in Dubai (or anywhere in the world). I have met some amazing colleagues and have been trained by some of the best speakers in the world. The training facilities provided by CAPP really are top class.

Dr Mansour Ahmed M Alzahrani, Saudi Arabia

“ I like the organization and the supervision and assistance of every single delegate in hands-on course.

“ I liked the simple way of Prof. Paul Tipton in explaining the complexity of occlusion. The hands-on is excellent and the feedback that we get from Prof. Paul and the other supervisors is very constructive. The hands-on is absolutely perfect.

Dr Huda Al Faqeeh, UAE

“ The programme was much more wonderful and educational than I expected. The lectures by Prof Tipton were just too good and the hands-on was a totally new experience. As a dentist who graduated recently, it was a wonderful learning experience.

Dr Greeshma S Praveen, India

“ It was a great programme. I think everyone should take it. It helps a lot in the dental practice.

Dr Rahat Azhar, Pakistan

“ Lots of hands-on, which was great, gave us enough time to practice and perfect.

Dr Maxine Annette Sowden Lusaka, Zambia
