

Impacted wisdom teeth: A-Z management & easy extraction technique

HANDS-ON TRAINING

Dr Maurizio Martini, Italy

7CE
Credits

 **DATE:**
02 Dec 2023 | 09:00 - 18:00

 **LOCATION:**
CAPP Training Institute | Dubai | UAE

 **TARGET AUDIENCE:**
General Dentistry, Periodontics,
Oral and Maxillofacial Surgery

Abstract

One of the most common and annoying problems dentists face in their daily practice is managing patients with impacted wisdom teeth. The right “risk assessment” combined with an efficient technique can guarantee a smooth and safe extraction. Only a few instruments are needed that together with a consistent and reliable strategy will allow the dentist to turn out such a difficult surgery in a routinely procedure.

Learning Objectives & Outcomes

- Discuss indications: which X-rays do you need and how to read them correctly
- Extraction surgery protocol: how to plan the right strategy for the extraction making it simple and predictable: explain the separation of the tooth and the areas of respect
- Evaluate the importance of the instruments and how to use them
- Discuss and demonstrate the right suture
- The post-operative instructions for the patient: they are as important as the surgery itself

Hands-on Training Component

The practical of the course will be performed on very special imported dummy models.

Target Audience

The hands-on training course is suitable for GP Dentists, Dental Students, and other specialists. The course aims to help dentists practising general dentistry who need to improve their confidence in the extractions of impacted wisdom teeth.

Agenda

09:00 – 10:00	Wisdom teeth extraction: indications, risks and benefits
10:00 – 11:00	Clinical and radiographic evaluation of the difficulty of extraction. Analysis of different positions of the wisdoms and relative strategy for extraction. Areas of respect
11:00 – 11:15	Coffee Break
11:15 – 13:00	Extraction techniques: the importance of using the right instruments, flap design, ostectomy, separation of the tooth, suture and use of piezo surgery. Video and clinical cases discussion
13:00 – 14:00	Lunch
14:00 – 17:30	Hands-on training wisdom teeth extractions on very special imported dummy models
17:30 – 18:00	Complications and post-op instructions

Teaching Methods

Formal and didactic lectures, case studies and discussion.
The hands-on training session will consist of the practice of skills.
