

Nitrous Oxide Conscious Sedation

HANDS-ON TRAINING

Dr Yasmin Kottait, UAE

7CE
Credits

DATE:

07 Feb 2025
09:00 - 18:00

LOCATION:

CAPP Training Institute
Dubai | UAE

TARGET AUDIENCE:

General Dentistry, Pediatric Dentistry

Abstract

This course is designed to provide theoretical and clinical instruction in nitrous oxide/oxygen analgesia in accordance with the American Dental Association, and Dental Faculties of the Royal Colleges of Surgeons and the Royal College of Anaesthetists (UK) guidelines. This course will enable participants to achieve an understanding of the administration of nitrous oxide/oxygen analgesia for dental treatment. The course is intended for general dentists and dental specialists. In the afternoon hands-on training session, participants will have the opportunity to administer and undergo nitrous oxide sedation under close supervision.

Learning Objectives & Outcomes

- Define and describe the physiological and psychological aspects of anxiety
- Describe the stages of consciousness and the levels of sedation
- Discuss the pharmacology of nitrous oxide
