

Primary teeth with extensive caries: Anterior Zirconia Crowns, Posterior Stainless Steel Crowns, Pulp Therapy

HANDS-ON COURSE / ONLINE

 21 May 2021
Friday | 09:00 - 18:00

 Online Live &
CAPP Training Institute

 Area of interest:
Pediatric Dentistry

Dr Elias Berdouses
Greece

Abstract

The course is designed to give information on the principles of the pulp management of primary teeth with pulp involvement, indications for the treatment and the use of contemporary materials. Then, the course will discuss the use of aesthetic zirconia crowns for the restoration of the anterior and stainless steel crowns for the posterior teeth. The course will also provide a "hands-on" section that will improve the skills, knowledge, and confidence of the participant in the use of new types of MTA material for pulp treatment and both crowns...
