

A human cadaver hands-on course:

Neurotoxic protein, fillers & anatomy in facial aesthetics

HANDS-ON TRAINING

Dr Rami Haidar, UK

7CE
Credits

DATE:

29 June 2024
09:00 - 18:00

LOCATION:

Dubai | UAE

TARGET AUDIENCE:

General Dentistry, Cosmetic Dentistry,
Restorative Dentistry, Oral and Maxillofacial
Surgery, Healthcare/medical professionals

Join CAPP for a one-day human cadaver hands-on course tailored for medical and dental professionals. This comprehensive course is designed to enhance the participants' understanding through both didactic (morning) and hands-on (afternoon) sessions. With individual human cadavers allocated to each participant, you will have unparalleled access for in-depth exploration and learning.

This is a non-commercial and non-sponsored educational initiative. The speaker is not sponsored or have any commercial interests with any company. CAPP prioritises delivering top-tier, evidence-based education to ensure all delegates receive the highest quality education.

Seats for this exclusive opportunity are extremely limited and will be allocated on a first-come, first-served basis. Don't miss your chance to participate in this transformative training experience.

Abstract

Minimally Invasive Surgical Aesthetics treatments are highly sought after in the medical and dental industry worldwide. To gain more confidence in the techniques and ensure safety, we have established an intensive one-day workshop. Delegates will participate in a presentation covering the science and various methods of facial injections. They will also have hands-on experience applying these techniques on human cadaver heads following a detailed anatomy dissection, which they will conduct themselves.

Learning Objectives

- Understand and identify the related head and neck anatomy through hands-on dissection.
- Recognize the aging process.
- Perform facial analysis and assessment.
- Acquire the clinical skills of injecting firsthand.
- Recognize the danger zones and learn to handle complications firsthand using human cadavers.

Registration & Pricing

Courses Outline

- Related head and neck anatomy.
- Facial analysis.
- Introduction to dermal fillers and botulinum toxin.
- Head and neck dissection.
- Hands on injection techniques.
