

Pediatric zirconia crowns: Sedation, preparation and pulp therapy

HANDS-ON COURSE / ONLINE

 29 October 2021
Fri | 09:00 - 18:00

 CAPP Training Institute
Dubai

 Area of interest:
General Dentistry, Pediatric Dentistry

Dr Yasmin Kottait
UAE

Abstract

Today, more than ever, there is a bigger demand on the practitioner to have esthetic alternatives to treating little ones. Stainless steel crown restorations have been the gold standard in Pediatric dentistry ever since their invention. However, more and more parents are demanding “white” tooth restorations for their child’s smile! Restoring severely decayed primary teeth still pose so many challenges for the clinician; from choosing the right treatment option to dealing with treatment failures when they happen. This lecture, is going to answer the million-dollar question of how to offer white crowns to children in the dental practice drama free and tear-free?....
